## About Frisée

**Available:** Year Round

**Also known as:** Curly Endive

**Characteristics:** Frisée is a member of the chicory family and known for its curly pale-green leaves. Frisée lettuce can bring dimension and texture to any salad preparation with its mildly bitter, peppery flavor and crunchy leaves.

### Preparation Suggestions

Always rinse your produce under cool water before using. For fresh, easy preparation, tear leaves and add to a salad or sandwich. Frisée greens pair well with radicchios, endive, and baby lettuces.

### Storage/Shelf-Life

Keep frisée refrigerated in a crisper or in a sealed plastic bag. It should last up to a week.

Style / Case	Case / Pallet	Case Cube	Ti	Hi	Net Weight
